One of the strongest pillars of any B School is its placements ecosystem and BIITM provided immense opportunities to every student to get placed with their dream company during this critical pandemic as well. I am personally very much happy to study in this B School as it has competent faculty in every department with a supportive and learning ambience. The B School has given me ample opportunities to prove my capabilities in all spheres. All I can say is "It's not just a stand-alone B School but a family" where you can learn, grow and shine. I am happy to have made the right decision by choosing BIITM. Proud to be a BIITMian.

"I owe my success to having listened respectfully to the very best advice, and then putting into action." Pursuing Masters from BIITM was a blessing for me. I got competent Professors and great companions to learn and work with. BIITM helped me acquire suitable corporate skills which were not innate in me. The institutional curriculum also has a significant role in building my career. The placement team works day and night to shape student's futures by getting them placed in good companies.

I am fortunate that I got an opportunity to do my MBA in one of the most eminent B School's like BIITM. During to corona lockdown, I got a job in the campus, but after a decent interval of time I got wonderful experiences which can't be describe in words. BIITM provided me a good platform to showcase my talent & skills. Placement is the best part of BIITM & both faculties & staff are very supportive.

My experience at BIITM was momentous. MBA is a perfect blend of joy and hardships. This Pandemic (Covid 19) taught us one fundamental thing that Life is Unpredictable. So Live the moment and Grab Every opportunity that comes to your door. Projects, Internships & Industrial visits were Real life Experiences in Corporates which were provided by BIITM. In my 2 years at the B School helped me grow as a Person both personally & professionally. All credit goes to our Faculties & Placement cell because of their valuable teachings & continuous efforts.

I still remember the day when I took admission into BIITM. I was surprised how organized the admission process was, perfectly showing what management looks like in real life. That's when I understood what management really is. I don't think many students have ever stopped to think about how much of an impact their B School has made to them, but I have and I can honestly say that I would be not where I am today without BIITM and for that, I owe a huge thanks to the B School. Life was going well till COVID hit us and hit really hard. We were forced to spend a crucial part of our B School life at home. Even at hard times like this, our faculties supported us and made us capable to face this situation. Though I dreamed of getting a proper farewell; it remained a dream but with no regrets in my heart I heartily thank all my faculties especially Chandrasekhar Sir, my hostel mates and all my close friends for my success. You all have certainly made my B School life a memorable one.

"In Life Results are always Rewarded, Efforts Aren't " The Millennials age group can easily relate to this line who are seeking success in this rat race. If I talk about BIITM, they nurture the students in such a way so that they bring to the fore skills and capabilities in this competitive market. Our batch (2019-21) faced with lots of unavoidable obstacles, one of them was Covid but beside that BIITM always stood behind as a pillar and supported the students in the best possible way. Right from the placement team to the faculties and the support staff, all stood behind us in every hour of need.

Thanking would be very less to signify gratitude towards BIITM.

I am Eleena Sahoo joined BIITM with lot of hopes and expectations. We all join a professional course with the expectation of a good job in a good organization but what I learnt in MBA is before expecting a good job improve your skill continuously and choose a sector wisely on the basis of your full interest in which you want to make your carrier. Don't panic by listening to these words sales, targets, field jobs etc. Remember in every profession there are sales and targets. When a lot of companies will come from different sectors you might get confused, but don't worries go to your seniors, to your closet faculties and specially listen to your instincts; they will clear your doubts. All the best to you all.
