Someone once told me: BIITM is the epitome of Harmony. Back then, this statement did not really make much of an impact, but now in the glimpses of my past, I shall definitely state that BIITM was and is the same. My student life at BIITM was a major part of my adulthood. Keeping my career in mind, travelling far away from my birthplace was quite an intimidating experience. However, that was not the scenario at BIITM. The teachers made me feel cordial and familial. The people I met, all from diverse backgrounds, became my valuable assets for life, friends. Peer learning definitely helped me grow into the person I am today.

What made BIITM College special is probably the people who were there with me. We were different in many ways: culture, religion, caste, creed and gender, but that did not hinder in any way while making friends, being guided by mentors and teachers and having each other's back when in need. Once we left the college, what we could take away with us were only memories we share till date and the friendship and learning that would last for this lifetime and undoubtedly we have created a community of a new thriving Alumni community.

BIITM definitely gave us a meaning to life and equipped us to live a good life in future!

I believe a college is well known for creating values in student's life, not only academically but also in a overall basis. According to me BIITM is such a college which has really created great values in my life and acted as a catalyst in my success journey. The best thing about the college is to make the students understand the practical use of the concepts that are being taught in the class, which helps a particular student to get oriented with the industry of his/her interest. Moreover the placement department is the backbone of the college. It arranges Pre-Placement sessions so that the students will be familiar with the interview procedure and will not feel nervous during the interview. Also the department provides quality internships and live project opportunities which enables a student to get exposure in the industry. The placement cell also have a student placement committee which is formed by a group of students who actively participate in placement activities and ensure a smooth flow of the placement procedure.

Today I feel so much proud that I have been placed in a company known as "Proiasys inc." headquartered in Columbus, Ohio, U.S. as a "Talent Acquisition Specialist". I deal with clients like Google, Apple, HCL, TCS and many more for fulfilling their job requirements. Also I am working with the core HR team for employee engagement and employee welfare services.

Ipsita Sahu **Flipkart**

Hi, I'm Ipsita Sahu from MBA 2022 Batch. BIITM has been a huge motivator in encouraging me to become the involved and eager professional that I am today by enhancing my interpersonal skills. It fuelled my passion as well. I firmly believe that data should drive decision making, but accompanied by fresh creativity to support it with the goal of growing the idea. Faculties at BIITM helped me to transform this idea into reality. I aspired to gain professional experience within the realms of HR. In order to pursue my goal, my current skill set of leadership, communication and time management were highly elevated by the constant support from the entire BIITM family and they made my dream come true by providing robust placement opportunities. Acknowledging the good that BIITM gave me to build the foundation of all abundance.

Sushree Samantaray **Global Data**

It's an indeed extraordinary experience studying at BIITM .Throughout guidance and support of faculty members prepare students for each and every fights of corporate in terms of grooming, presentation skills, communication and management skills .

The placement department provided lot of support to find a place in the corporate by organizing various personality development classes, workshop, guest lectures, Industry oriented training and bringing companies at campus placements. Through interactions with classmates, professors as well as other college staff, I earned a "degree" in people and social skills that I did not even sign up for. With All those experiences and hard work help me to get placement at my dream company.

An Investment in Knowledge pays the best Interest Always. While the world struggled to adjust to the "new normal," the faculty, my seniors, and my classmates in BIITM made sure that even though being miles away from the campus, we learn the various aspects of the corporate world. The institute has helped me in my team-building skills and gave me a platform to utilize my skills that I have been gathering for several years. I really got a different way to look and increased my analytical skills in my classes. Being interested in HR Domain, I got placed with a good Package at In2IT Enterprise Business Services as HR Success Factor. The Placement Cell evaluates the Potential of the students and provides them with the best ones. The day you decide you'll be a different person; the World will support you. Both Physical and Virtual Internship opportunities were provided to us. Many workshops, training and development classes, one to one mentoring, Club meetings, etc. makes the college a unique one.

Priti Nepali **Praxis Home Retail**

Success doesn't always come from the person standing in front of you, it's the people sitting behind you. After completing my graduation in Science I choose MBA in BIITM to give my career a proper shape. Now I can proudly say that it is one of the best decisions of my life as our institution has provided me the right platform to get into one of the top paint companies of India.

Today I am successful only because of the Mantras given by our beloved professors who have always shown me the right path for it. I would also like to thank our Placement Team for the selfless support and coordination that was provided during my two year journey .

I think BIITM is a very welcoming college because before joining the college I was worried about the environment because I felt I was a bit older to this batch but honestly I never expected that my batchmates & teachers would be so accepting. They accepted me the way they have accepted others. It is quite obvious I joined BIITM just for placements but after joining I realised that not only its placements but also its academics are really good. The way faculties put their effort to make students understand different concepts is quite appreciable. And the best part is the Mentor group, this is the 1st college where I saw this concept where a particular faculty is appointed to guide some 10-15 students and that too personally. Placement team has conducted so many programs for the enhancement of skills like Campus Jobs, 5 days Placement Workshops. Last but not the least I have learnt so many things from my friends like there were times I was not able to understand management concepts especially finance because I am from an engineering background so my friends have helped me to understand that particular topic. There are so many things to share but due to time and sharing mode of review constraint I would like to end here. Overall, I am really grateful that I chose BIITM to pursue MBA.

BIITM believes in imparting quality education. Starting from the friendly and knowledgeable faculties to the dynamic placement department of the organization, all the members of the institution are focused towards providing hands-on experience for holistic development of the students. I must say that the wholesome atmosphere that I got to witness in the college campus was commendable. Everyone in the campus, may it be teaching or non-teaching staff, were always there to help the students with whatever problem they face. Within these two years, I have seen the college upgrade itself constantly whenever it found an opportunity to provide better facility and additional knowledge to the students concerned. I feel proud to have been associated with this esteemed institution.
