Students during a dance performance

Students scorched the ramp

Living it up in style

They enjoyed, had fun and danced till their feet allowed. They are the students of a city-based management college celebrated who recently celebrated their annual fest.

The enthusiastic students tried hard to make the evening really special for the huge audience that was present at the college ground. Needless to say they succeeded! The students sent the crowd to a tizzy with their moves. After a point, the audience also joined in the fun.

The highlight of the evening, however, was the fashion show. Once the models showed up on the ramp, the cheering got louder and louder. "It's fabulous! I just loved the fashion show. It was terrific to see our friends walking the ramp. I think, with their kind of talent, they can put professional models to shame. Life is just rocking here," screamed Ronali Dutta, a student having the time of her life there.

Deepan Sahoo, a student who came from a small town in Odisha, seemed to be relishing each moment of the evening. "My friends and I had a great time. I couldn't have imagined feels can be so much fun. I wish this could go on forever."
